About Us

A CORPORATE SHOE GIRL TURNS TO CHEESE AND HER DREAM FOR PHASE 2 OF LIFE....

THE BEGINNING

So, to start, 2020 was quite the year for all of us but as I entered a new and terrifying chapter in life, I believed that it was the beginning of my 'real life', the one I had been waiting and preparing for. I said goodbye to the only industry I've ever known, and I believe all those people I met along the way and the moments we shared made me a stronger and better human. There are only opportunities in our future! I said that in August that it was time, but it wasn't until December that I pulled the trigger. I spent many days hiking and contemplating but after a few eye-opening experiences I decided that living my dream was the only option.

Mountain Melt's front of the house on the truck was the ultra-talkative Margo aka GM or mom. Margo will talk to you for hours if you let her!! Mom isn't the chef of the fam so that's not in her wheelhouse, but she loved getting to meet everyone over the last 2 and a half years in the front range! And then there is Cierah, my 24-year-old, yet still my little baby girl. She only graces us with her presence at times but it is always a blast when the three of us are together. What makes us work together is a unique chemistry we all three have. These three generations truly do enjoy the awesome connection we have. We have been on vacations overseas, and survived a 2 week cruise (and if you have ever cruised you know how small those rooms are) yet no one went overboard! My mom, daughter and I love travel. We love finding those fun local restaurants where the food and the hospitality puts a smile on your face like none other and have wanted nothing less every time we serve a grilled cheese to you!

And now we get to do that in our first brick and mortar here at Angry James Brewery!! I am so thankful we landed here with AJ and his amazing family and friends at the best place to be in Summit County!!! Love you all!!!
